

I served as a Councillor, representing ATS (and before that, CAST) from 2013 to 2020. I was a member of Executive representing ATS from 2017 to 2020. I was Vice-President of AASUA 2020-2022, including several months as President following the resignation of our previous president. I have also served on the AASUA Governance Committee for the past 4 years.

The AASUA is a valuable voice for academics at the University of Alberta. Although alternate councillors are not a prominent or well-known role, I feel that it is important to support the work of Council by having backup voices available when needed. My ongoing involvement gives me helpful background to step in as needed and contribute an informed voice to the issues before Council.
