

ENGAGE

everyone

across our campuses

To: Bill Flanagan, President and Vice-
Chancellor
University of Alberta

The University's vision statement, *For the Public Good*, includes the goal that we will “**engage** communities across our campuses” and beyond in creating “mutually beneficial learning experiences”.

As skilled researchers, scholars, and educators, TRAS members are thrilled at this invitation to be a fuller part of the university.

Greater job security and more equitable compensation would empower these hundreds of researchers to dramatically advance the engagement of students and others.

To:

Bill Flanagan
President and Vice-Chancellor
University of Alberta
